With harpoons strapped to their backs, the proud whales of Bathsheba's pod live for the hunt, fighting in the ongoing war against the world of men. When they attack a ship bobbing on the surface of the Abyss, they expect to find easy prey. Instead, they find the trail of a myth, a monster, perhaps the devil himself... As their relentless Captain leads the chase, they embark on a final, vengeful hunt, one that will forever change the worlds of both whales and men.

Oceans & Coasts | National Oceanic and Atmospheric ... Climate change, sea level rise, more intense storms, and population growth are all challenges for our coastal communities. Okeanós) is a body of saline water that composes much of a planet's hydrosphere. On Earth, an ocean is one of the major conventional divisions of the World Ocean. These are, in descending order by area, the Pacific, Atlantic, Indian, Southern (Antarctic), and Arctic Oceans.

Ocean - Britannica.com Ocean, continuous body of salt water that is contained in enormous basins on Earth's surface. When viewed from space, the predominance of Earth's oceans is readily apparent. The oceans and their marginal seas cover nearly 71 percent of Earth's surface, with an average depth of 3,688 metres (12,100 feet. Ocean Habitat - Kids A sea, however, is a small area of an ocean, usually with land on several sides. The Mediterranean, nestled between Africa and Europe, the Baltic in northern and central Europe, and the Caribbean between North, Central, and South America are all seas. Oceans Information and Facts | National Geographic Smaller ocean regions are called seas, gulfs, and bays, such as the Mediterranean Sea, Gulf of Mexico, and the Bay of Bengal. Stand-alone bodies of saltwater like the Caspian Sea and the Great Salt Lake are distinct from the world's oceans.

Earth's Oceans - EnchantedLearning.com The always-moving ocean currents distribute this heat energy around the globe. This heats the land and air during winter and cools it during summer. THE OCEANS The Earth's oceans are all connected to one another. Until the year 2000, there were four recognized oceans: the Pacific, Atlantic, Indian, and Arctic. Map of Oceans | Oceans of the World Map and Information ... Largest Oceans; Deepest Waters; Earth Details; The surface of the planet is approximately 71% water and contains (5) five oceans, including the Arctic, Atlantic, Indian, Pacific and Southern. Their borders are indicated on the world image (above) in varied shades of blue. Ocean - 2018 News and Scientific Articles on Live Science Ocean.
